

COMMERCIAL LAUNCH OF IRIS MULTISCREEN SOLUTION IN BERMUDA

PRESS RELEASE

Nº 1 · 2019

MADRID, 15 January, 2019 - Mirada, a leading provider of products and services for digital TV operators and broadcasters, is proud to announce the commercial launch of its Iris multiscreen solution for One Communications, the leading telecommunications provider in Bermuda.

The deployment of Mirada's multiscreen technology across One's network is being accompanied by an extensive marketing campaign across Bermuda,

The commercial deployment means that "FibreWire TV" subscribers will now be able to view live and Cloud DVR content across advanced hybrid set-top boxes, smartphones, tablets and laptops, with a user interface working seamlessly utilising Mirada's Inspire user interface. In addition, their subscribers can now benefit from all of the cutting-edge features of Mirada's multiscreen solution, such as start-over, session transfer between set-top and personal devices, personalised recommendations and Cloud DVR, in which Mirada's powerful back-end, Iris SDP platform interoperate with key components in the solution offering the customer a single interface for interacting with the market leading features.

The platform has been deployed in the cloud, which provides a whole range of advantages, including the ability for One to access and control their platform anytime and anywhere. The cloud-based platform also significantly reduces the complexity and time required to deploy new releases. This will facilitate the implementation of upcoming features and integrations by Mirada across One's service. ATN International, Inc. ("ATN"), controlling shareholder of One, worked with Mirada and One personnel on the deployment.

Mark Jensen, Executive Director of Video Product and Strategy of ATN, commented:

Mirada was chosen as an integral component in our TV solution due to their market leading user interface, service features and ability to be deployed within today's leading cloud infrastructures. Using the Mirada TV Platform, we have deployed across HFC, IPTV and OTT service delivery infrastructures, allowing us to evolve services to our subscribers rapidly and efficiently.

José Luis Vázquez, CEO of Mirada, commented: "We are thrilled to announce yet another commercial launch for our Iris multiscreen technology, this time with One Communications in Bermuda. We look forward to seeing what is a whole new territory for us enjoy the ultimate viewing experience provided by our Iris multiscreen technology, in addition to working alongside ATN for further upcoming projects."

About One

Founded in 1998, One Communications Ltd. (formerly KeyTech Limited) is a diverse telecommunications holding company listed on the Bermuda Stock Exchange as ONE.BH. Its subsidiary companies specialise in cellular voice, high-speed internet, subscription television and data solutions for both residential and corporate customers in both Bermuda and the Cayman Islands.
